

7/8" WAVE PROFILE

The 7/8" Wave panel provides 37-5/16 inch wall and 34-11/16 inch roof coverage and is composed of major S-shaped ribs at 7/8 inches tall and 2-11/16 inch on center. This product can be utilized as a roofing, liner and/or siding panel. Most commonly it is utilized as a an accent or wainscot panel for interior and exterior walls.

Currently the 7/8" Wave panel is being rollformed in 24 and 26 gauge Zincolume/Galvalume, as well as, a wide variety of 24 gauge, Firestone, Kynar colors. Special order colors are available; however, there are required minimums.
