

HUSKY PROFILE

Husky panel covers 36" and is composed of four major ribs, 12" on center and 3/4" high. The stiffener ribs between the major ribs are symmetrical with the flat areas to provide an attractive appearance. Husky panel is available in both galvanized and pre-painted galvanized steel. The paint coating on the Husky panel is a high quality SMP (Silicone Modified Polyester) finish.

Notes:

1. Allowable loads are for uniform load on 3 spans simultaneously
